Android 8.1 Features and APIs | Android Developers
Developer guides Here you'll find a wide range of documentation that teaches you how to build an app, including how to build your first Android app, how to build layouts that adapt to different screens, how to save data in a local database, how to use device sensors and cameras, and much more.

Android Developers
1 Notes for external developers This document is mostly useful for internal FFmpeg developers. External developers who need to use the API in their application should refer to the API doxygen documentation in the public headers, and check the examples in doc/examples and in the source code to see how the public API is employed.
